FOR A HEALTHY, FIT, LIFESTYLE

The benefits of heat bathing become tangible once you've experienced an authentic Finnleo sauna. There is no better way to deal with mental strain and fatigue or to reduce stress and relax muscles than in a sauna. Whether it's the physiological changes that occur in the warmth of the sauna, or if it's simply the time spent in the calm, still retreat that causes the therapeutic effect, all who sauna bathe agree—it feels wonderful.

INFRARED OR TRADITIONAL— SAUNAS ARE GOOD FOR YOU!

Numerous medical studies confirm what the Finns have known for 2000 years—that a sauna not only makes you feel good, it's good for you. You sweat, toxins are flushed, calories are burned. You get a cardiovascular workout. Mental stress is reduced, resistance to illness is increased—you look better, feel better and sleep better!

A FAR-INFRARED SAUNA SURROUNDS YOU IN WARMTH

A Saunatec Infrared sauna provides soothing heat directly radiated to the body, with very little time waiting for preheating. The Carbonflex® heating system ensures soft heat, fully surrounding you. With Infrared heating panels spanning wall-to-wall, the heat is distributed evenly within the cabin space.

FINNLEO AND SAUNATEC: DESIGN, QUALITY & FUNCTION

Finnleo's high quality, thoughtful design, the best materials and careful craftsmanship make the sauna experience the best it has ever been. Scandinavian design focusing on the interaction between beauty and function create versatile systems that can easily be customized to your preferences. Finnleo and Saunatec saunas are available in traditional to contemporary styles.
