

We help people  
enjoy water!

Pool Tech's weekly maintenance service is thorough.  
Basic Chemicals are included!

- **Vacuum pool**  
We capture even the smallest debris from the bottom of your pool.
- **Clean skimmer baskets, pump strainer baskets and robotic pool cleaner**  
This is an essential step. A clean skimmer basket will allow the pool's pump to operate more efficiently. We dispose of all leaves, wind-blown debris and the occasional toad.
- **Brush pool walls, steps and bottom of pool**  
Brushing disturbs biofilm and algae from growing on your pool's interior. We know the appropriate type of brush that your pool requires.
- **Backwash sand filter**  
Backwashing is "self-care" for your filter and pool. It removes debris that has collected in the filter, and also removes some water from your pool—rotating the stock a bit. If needed, additional water is added to the pool.
- **Inspect overall condition**  
We get to know your pool and how it typically reacts within its environment. Your trusted Pool Tech staff will spot anything amiss in your pool area. An ounce of prevention equals a pound of cure!
- **Test water and add set dosage of chemicals**  
Keeping your water in balance, with best practices, ensures your safety. For example, certain chemicals should not be added together. Chemicals for special situations will incur a cost.
- **FREE diagnostics—we'll advise you of needed repairs**  
If we see something we'll say something! Whether you prefer notification or you prefer we fix it on the spot, keeping your equipment running optimally is our goal.
- **Our CERTIFIED pros are happy to answer questions**  
Check with us while we are at your home or call or e-mail anytime. We are happy to assist you at the level that you are most comfortable. Our staff are CPOs and are also trained by the various manufacturers that we represent.
- **Free record-keeping**  
We maintain a profile of your equipment and document your service history. Mechanical equipment does not last forever. We are up-front about the service/usage life of pool equipment and we keep you notified of upcoming service needs, similar to the maintenance schedule for your car. We keep in touch with you regularly.

Basic weekly service is \$125 per week. Call for rates for other service options. Let us manage your pool so you can relax and enjoy!
