Renovation

“ We never would have imagined a pool fitting this well into our location. I love the sun shelf! Pool Tech helped turn the yard into much more than we ever thought it could be.”

—Cedar Rapids Pool Owner

“The pool is a central part of our place. We’ve updated it to be more natural and switched to a new saltwater/ozone system. Now that we’re empty nesters, we have our grandkids over, and

it’s being enjoyed by another generation. It’s a magnet: It’s fun to see the grandkids have a great time like their moms did when they were young.”

—Iowa City Pool Owner

Pool Tech is a full-service company.

Teamwork makes us strong! Pool Tech has been helping people enjoy water for more than 46 years. Bringing professionals and homeowners together at the start of a project ensures quality and creates a more cost-effective outcome. We create stunning, integrated poolscapes for Custom Concrete, Vinyl-liner, Hybrid, or Fiberglass pools.

Pool Tech supplies the pool designer, engineering and construction professionals. We can also collaborate with architects, landscape designers, decorative concrete experts, kitchen designers, and more.

Uniquely fitting your desires, property, and budget, Pool Tech is your best total planning value.

We put you at the center of the team, and listen carefully to bring you the most enjoyment!

“Building a pool was the best thing we ever did! We open it very early—it’s heated! We also have a fireplace, pergola and barbecue pit. We spend more time outside than inside in the summer. Many nights, we’ll have a drink by the fireplace and enjoy the poolside atmosphere.”

—Iowa City Pool Owner

“Each backyard environment is unique. An architect looks at the relationship of the components to one another creating a better, more functional design. I prefer working with contractors who are very

knowledgeable in their fields, like Pool Tech. I rely on their expertise of pool construction techniques and operations to provide guidance for the overall design.”

—Greg Sundberg, Architect

Pool Tech’s certified service pros and retail staff are ready to help!

We guide you through the design and construction process, and when your pool is complete we assist you in keeping it sparkling clean and running efficiently. Our customers range from doing all the maintenance themselves —to doing some—to letting us take care of everything with a weekly maintenance plan.

As an authorized BioGuard® Dealer we offer our customers free, detailed, digital water analysis; instruction; and personal assistance.

Put our expertise to work for you!
