# Renovation

When your pool could benefit from new technology or nears the end of its service life, trust Pool Tech's experience and expertise to offer cost-effective restoration solutions. Regardless of who designed or built the original, we provide a number of options for transforming older pools.

Your swimming pool/aquatic facility is an asset to you, and should be your "gem." Pool Tech has the ability to create a poolscape that will attract users and members.

## Pool Tech can help with:

- Resurfacing
- Waterline tile replacement
- Leak discovery and repair
- Construction
- Mechanical room redesign and installation
- Technological and equipment upgrades
- Increased energy-efficiency
- Expansion of your aquatic facility
- Maintaining your UV warranty
- Long-term planning
- Capital expenditure planning

## Capital Expenditure Planning

Revitalizing your aquatic facility requires capital expenditure planning. Contact us early on—we understand the pre-planning that needs to happen to ensure budget allocation. Pool Tech can provide preliminary information and a Phase 1 Study to help you navigate the concerns of your Board of Directors, owner, and/or Community. We review and consider total project costs, including construction, operation and maintenance expenses.

## We ask better questions in order to:

- Obtain financing
- Design with existing pool structure if desired
- Provide strategies to extend equipment life
- Attract membership and users
- Provide expert planning
- Increase energy efficiency
- Redesign mechanical room for ease-of-use
- Keep up-to-date with current code
- Consider the full project, including paint, tile, acoustics, air quality, ease of maintenance
- Bring best practices to the process
